

Hathway Cable and Datacom Limited

Investor Presentation – August 2018

Company Overview

- Hathway Cable & Datacom Limited (Hathway) promoted by Raheja Group, is one of the largest Multi System Operator (MSO) & Cable Broadband service providers in India today.
- The company's vision is to be a single point access provider, bringing into the home and work place a converged world of information, entertainment and services.
- Hathway is listed on both the BSE and NSE exchanges and has a current market capitalisation of approximately INR 20.6 Bn as on 30th June, 2018.

Consolidated Revenue* (INR Mn) & EBITDA Margin (%)

Broadband

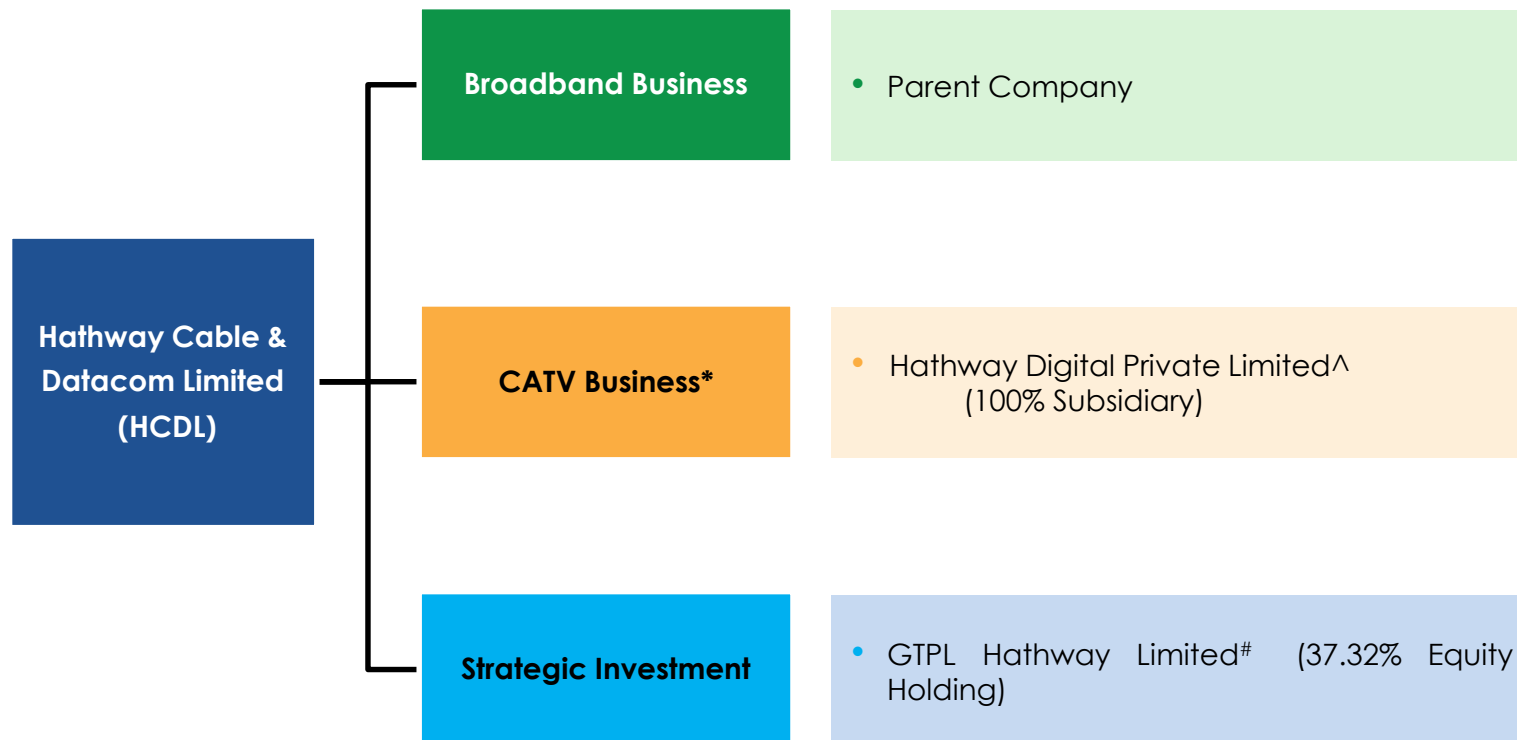

- Hathway holds a PAN India ISP license and is the first cable television services provider to offer broadband Internet services
- Approximately 5.5 Mn two-way broadband homes passed
- Total broadband Subscribers – 0.77 Mn
- High-speed cable broadband services across 16 cities (4 metros and 3 mini metros)
- More than 52% share of the total MSO cable broadband market in India

Cable Television

- One of India's largest MSO, across various regions of the country and transmitting the same to LCOs or directly to subscribers
- Extensive network connecting 7.2 Mn digital cable subscribers / households
- 65% of Subscribers serve through Hathway Connect and 57% online payment made by LCO
- Offers cable television services across 350 cities and major towns
- 15 in-house channels and 10 Value Added Service (VAS) channels

FY18 Operational Revenue Break-up

Objective

Build Value for all stakeholders in the Value chain

Differentiated customer experience

Trendsetter in broadband industry on speed, GBs, Price & Value For Money equation

Leverage broadband and Cable Television presence to give differentiated content, services and applications

Investment for growth

Increase broadband subscriber base by increasing penetration in existing geographies

Leverage Cable Television network for Broadband business for accelerating sub growth

Transform costs

Cost Leadership

- Shared services model
- Automation
- Centralization / outsourcing

- Best in class consumer/LCO user interface in Cable Television industry
- New tariff order optimize content cost

□ FY18 performance (Consolidated)

- **Total Comprehensive Income (PAT)** : INR (1,052) Mn; **Losses reduced by 880 Mn** Y-o-Y(+46% Y-o-Y)
- **Total Income**: INR 15,444 Mn; **Increase by 1,762 Mn Y-o-Y**; Y-o-Y Growth: (+13%)
- **Operating EBITDA** : INR 3,360 Mn ; **Increase by 1,393 Mn Y-o-Y**, Y-o-Y Growth: (+70%)
- **EBITDA Margins** : 21.75%

Hathway Cable and Datacom Limited (HCDL) opts to disclose only the standalone results to the stock exchanges as mandated under the SEBI (Listing Obligations and Disclosure Requirements) Regulations. In view of the transfer of CATV Biz to Hathway Digital Private Limited (HDPL), management of HCDL presented the above clubbed numbers of HCDL and HDPL merely to facilitate a high-level comparison of quarterly numbers to its board. The clubbed numbers of HCDL and HDPL are based on the standalone financial statements of each of HCDL and HDPL respectively. The numbers of HCDL have been reviewed by its audit committee and statutory auditors. The numbers of HDPL have been approved by its board. No material deviation is expected in the clubbed numbers.

Broadband Business

- Hathway holds a “Category-A” PAN India ISP license and was the first cable television services provider to offer broadband Internet services.
- The company is India's largest cable broadband services provider, with ~ 5.5 Mn two-way broadband enabled homes.
- Broadband subscribers comprise of domestic households and corporate subscribers.
- The Broadband segment is a completely B2C where Hathway manages the entire value chain – from marketing, sales, customer service, billing and collection, call centre and technical compliance.
- Hathway holds 52% market share of the total MSO cable broadband market in India.
- Hathway pioneered the launch of high-speed 50 MBPS plans in India, using DOCSIS-3.0 technology in partnership with CISCO and upto 200 MBPS plans using FTTH technology in partnership with ZTE.
- The Marketing campaign of Hathway led by “R Madhavan”.

Consolidated Broadband Revenue (INR Mn)

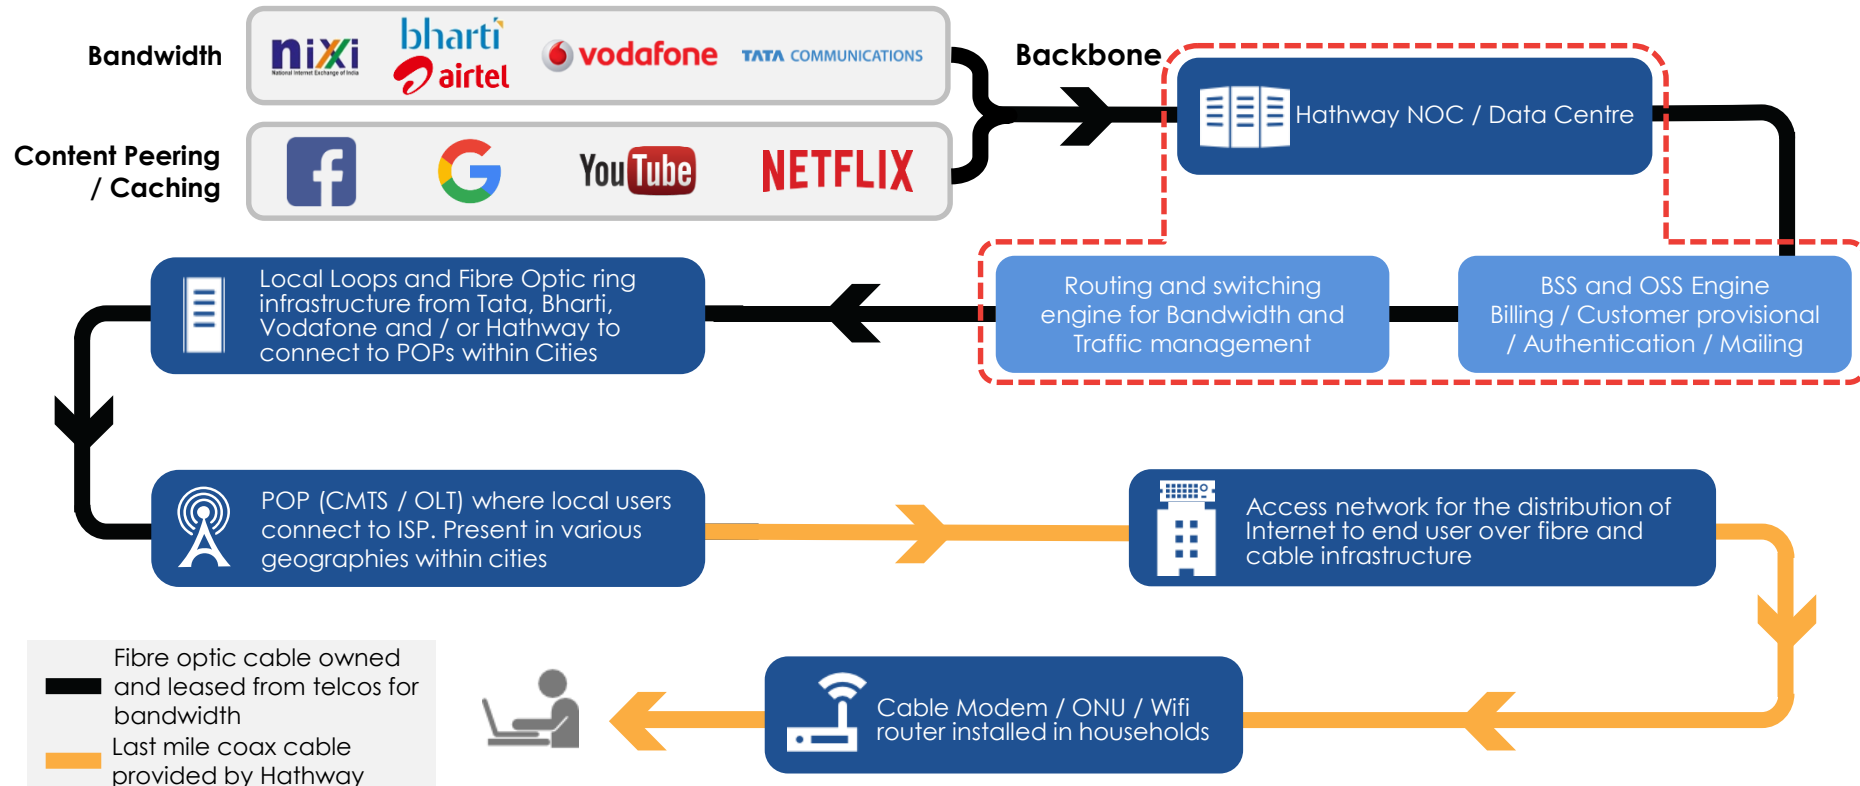

Consolidated Homes Passed & Subscribers

Consolidated ARPU (INR)

NAP – Network Access Point

POP – Point of Presence

CMTS - Cable Modem Termination System

NOC - Network Operations Centre

OLT – Optical Line Transmitter

ONU – Optical Node Unit

BSS – Business Support System

OSS – Operational Support System

Technology / Infrastructure

- DOCSIS 3.0 and 3.1 – pioneers in launching high-speed 100 Mbps broadband.
- GPON Fibre to home – capability to offer speeds upto 1 Gbps
- 5.5 Mn “Home Pass” in major metros.
- Adoption of Oracle billing & revenue management system ERP and other customer interface.
- TCS has been appointed as System Integrator to automate various Processes and Improve Quality of Service.

LCO partnership

- Excellent coordination between Broadband and Cable on ground teams, co-creating expansion plans.

Customer / Service

- R Madhavan as brand ambassador
- Partnering with various content providers, education portals and other lifestyle improvement players
- Self care app “Hathway Broadband” has been launched to provide customer to access their data usage pattern, billing cycle and make online payments
- In Partnership with Microsoft 1 TB cloud storage being given free to all yearly pay term consumers.

Content Tie up

- Collaborative venture between Hathway and Yupp TV providing a host of customer centric services

Final Output

Maximum speed is up to
300 Mbps

Subscribers increased from
0.42 Mn in 2013 to
0.77 Mn in Q1-FY19

ARPU increased from
INR 350 in 2013 to
INR 690 in Q1-FY19

Monthly ARPU
>INR 710 from
new subscribers

Average monthly usage
per subscriber has
increased from **30 Gb**
in FY16 to **105 Gb** in
Q1-FY19

- In last 12 months 0-20 GB consumers have gone down from 23% to 6% of customer base, This is both due to increase in data consumption as well as loss of this low usage segment to low price plans of mobility. On the other hand >80 GB consumers have increased from 24% to 54% of customer base. This realigned customer portfolio is extremely healthy for long term profitability.
- Average GB / consumer / month has increased to 105 GB in the month of June-18. Strong indicator of demand side potential of high speed wireline broadband.

Hathway Offers the largest HD Bouquet

Number Of Channels

Distribution Platforms

TRAI's new tariff order

- TRAI's proposed regulatory changes on tariff may drive structural change in the entire value chain (Broadcaster – Distributor – Consumer).
- **Broadcasters** with strong franchise will benefit from higher subscription and ad revenue.
- **Distributors'** business model will be largely de-risked, given stable revenue (distribution charge from consumers and content commission from broadcasters) and content cost becoming pass-through.
- **Content producers** will benefit, given broadcasters' increase thrust to create 'pull content' to attract viewers.

Key impediments

- On-ground execution remains the herculean task of customizing channels for each subscriber, customised packaging will have to be done by distributors to ensure smooth transition.
- Revenue sharing arrangements between MSO-LCOs needs to be ironed out.
- Push-back from broadcasters may result in elongated legal tussles, delaying its implementation or may result in significant alteration to regulations.

De-risked business model = Steady revenues from consumers / broadcasters + limited fixed overheads (content cost to be pass through) + higher bargaining power with broadcasters

Key Provisions

- Distributors can charge a maximum INR 130 (ex taxes) per sub per month as network capacity fee
- Maximum amount of INR 20 per sub per month for each additional lot of 25 SD FTA channels
- Broadcasters are permitted to offer a minimum of 20% distribution commission
- In case of arriving at a SIA, MSO and LCO share of service charges, network capacity fee and distribution fee shall be split in the ratio of 55:45

Impact on MSO

- Allows for complete pass through of pay channel costs from broadcasters directly to end subscribers
- Network capacity fee is expected to contribute to distributor's revenue
- Mechanism in place to settle fee-share related disputes with LCOS

Particulars	Present	New Tariff order
Content, Carriage & Placement	<p>Bundled Price for bouquet of channels with discount up to 90% on a-la-carte RIO Price of individual channels.</p> <p>Arbitrary increase in price of Content every year.</p> <p>Carriage & Placement - Negotiated based on DPO market share & market relevance for the broadcaster.</p>	<p>Channels will be offered at a-la-carte price (MRP) decided by Broadcaster, bouquet of channels will be sum total of a-la-carte price at nominal discount.</p> <p>DPO will get margin on MRP any increase in price will be passed on to consumer.</p> <p>Carriage payouts are prescribed.</p>
Customer Price	DPO decides Consumer Price, due to bundled deal, all channels are passed on the consumer with limited packages, resulting in wide variance in consumer price.	Consumer price prescribed as network access fees & Pay channel priced at MRP. This bring symmetry of consumer price across Platforms.
Cost	Bundled pricing results in limited packaging option. DPO can manage operation with basic SMS generally with couple of tariff plans.	Requires sophisticated SMS to manage high volume of al-a-carte choice to all subscribers. This may have cost implication to DPO who do not have required systems.
Cost of Swap of a STB*	Fixed cost model encourage subsidy on incremental STBs.	Variable cost model will be deterrent to subsidy on STBs.
